Summary

I'm a Python Geek exploring big data.

My current role in the Network Planning Department of Deutsche Telekom is to design and implement workflows to model the technical performance of 5G networks.

Furthermore, I'm involved in setting up systems to automate our fiber planning process.

Technologies I use:

- Python, PyData-Stack, KNIME, SQL, Java

Experience

Dual Student

Deutsche Telekom

Sep 2018 - Present (1 year 9 months +)

Education

HTWK Leipzig

Bachelor of Engineering - BE, Telekommunikationsinformatik

2018 - 2022

Ernst-Moritz-Arndt-Gymnasium

Abitur

2011 - 2018

Licenses & Certifications

Certificate in Advanced English - University of Cambridge

173DE0045107

Young IT Talent @ Telekom - Deutsche Telekom

Honors & Awards

2.Platz der NRW-Landesrunde in der Kategorie Mathematik/Informatik - Jugend Forscht

Mar 2018

Together with Felix Thiele I achieved a 2nd place in the category mathematics/computer science in the NRW state science competition with the project "Conceptualization and development of an artificial intelligence using the example of the digital card game Hearthstone".

Skills

Python (Programming Language) • SQL • Telecommunications • Project Management • KNIME • Objektorientierte Programmierung (OOP) • Englisch • Big Data • Docker • Data Science
